

Streamlit project

Name : Shivam Ramakant Deshmane

Domain : AI & ML

College : T.B Girwalkar Polytechnic Ambajogai

Objective:

To develop a Machine Learning model that predicts Ford car prices based on car features like model, year, mileage, fuel type, and transmission.

Machine Learning Algorithm:

Random Forest Regression algorithm is used to predict car prices. It combines multiple decision trees to provide accurate predictions.

Ford Car Price Prediction

Manufacturing Year

2015

- +

Transmission

Manual

Mileage (in miles)

45000

- +

Fuel Type

Diesel

Road Tax (in £)

150

- +

Model

Focus

MPG (Miles Per Gallon)

55.0

- +

Engine Size (in L)

1.6

- +

Predict Price

Conclusion:

The project successfully predicts Ford car prices using Machine Learning. A Streamlit application was created for easy and user-friendly prediction.
